

The FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections.

Indiana's Telephone Privacy law has improved my time at home.

Indiana's law has been very effective since I have been involved.

(e.g., "I used to receive 20 calls per week, now I don't receive any!").

My personal views about the importance of Indiana's law is that if I am interested in

won't information regarding telemarketing, then I will find it. I do not need to be bombarded by phone calls from them! I will be very disappointed if this law is changed to allow people to disrupt the valuable time I spend with my family every evening of the week!
